MODDING FS19/FS22

# How to change the music FS19/FS22 game home page

*Farming  
Simulator* **19**

*Farming  
Simulator* **22**

*Farming  
Simulator* **25**

# Step 1 :

*Make a copy of the original game audio on your desktop or in your documents, but don't worry, it's in the file in case of errors!*

- *It is available in under the name "original\_menu"*

# Step 2 :

*Put the new\_menu.ogg file in the local FS19/FS22 file by following these lines of code below:*

- *for FS19:* `C:\Program Files (x86)\Farming Simulator 2019\data\music`
- *for FS22:* `C:\Program Files (x86)\Farming Simulator 2022\data\music`
- *for FS25:* `C:\Program Files (x86)\Farming Simulator 2025\data\music`

☐ *It is available in under the name "new\_menu"*

## Step 3 :

*Don't forget to change the file name for it to work! The name "new\_menu" needs to be changed to "menu" for it to work on both games.*

*Without this, the game will no longer have sound.*

**Enjoy and have a good game everyone !**

*PS: in case of problems, do not hesitate to contact me via my networks or email available on my Kingmods profile !*
